

DATACARD® ID WORKS® ENTERPRISE IDENTIFICATION SOFTWARE

ID Works Enterprise identification software is ideal for end-to-end management of complex ID programs.

Sophisticated software for professional ID programs

Datacard® ID Works Enterprise identification software provides powerful, user-friendly tools for card design, secure card production and flexible management of complex, integrated ID programs.

High-end capabilities, modular components

- **Modular platform.** Separate packages for design and production let you distribute tasks effectively and pay only for the features you need at each workstation.
- **Biometrics and smart cards.** The software offers smart card support (proximity plug-in) to simplify smart card personalization management. You can also design multi-application smart card programs with the ID Works Software Developer's Kit.
- **Intuitive design tools.** Enterprise software enables you to design cards, reports and production forms with speed and simplicity. Shape drawing, transparent backgrounds and ghost images help customize cards. The application lets you integrate production forms with ODBC-compliant, multiple-table databases. Enterprise Designer software also allows you to access ID information stored in a directory service via the Lightweight Directory Access Protocol (LDAP).
- **Enhanced operational productivity.** Simple, powerful interfaces make it easy to capture images, enter and retrieve data and print cards and reports.

Standard Features

Flexible card, report and production form design

- User-defined card size (CR50, CR80, Custom)
- Auto-create production form
- Shape drawing support
- Font sizing and colors
- Multiple field selection, alignment and formatting
- Copy card and report designs between projects

Field types

- Variable text (with masking); Static text (with word wrap option); Photo (with border, ghost or transparent background option); Date; Bar code (22 types, including PDF417 binary support); Magnetic stripe; Static and variable graphic (with ghost and transparent color options); Non-printable area; List; Composite; Print count; Auto sequence; Signature; Smart card; Binary field; Event button; PDF417 binary bar code support

Image management

- In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
- Image and signature storage as BLOBs or files
- Multiple images per record
- Crop and adjust existing photo
- Batch import/export photos and images from production

Production and data management

- Data-driven production
- Supports multiple-table databases
- Supports Software Developer's Kit
- Proximity card plug-in
- SASI and Lifetouch plug-ins
- Auto-create Microsoft® Access 2000 database

Database management

- Quick, advanced and stored searches
- Retrieve records from "today"
- Retrieve records from "this week"

Database support

- Oracle® Oracle8i, Oracle9i and Oracle10g®, Oracle 11g
- LDAP-compliant directory services (such as Microsoft® Active Directory®)
- Microsoft Access 2000, 2007, 2010
- Microsoft® SQL Server™ 2000, 2005, 2007, 2010
- IBM® DB2® Universal Server 7.1 and 8.1

Help features

- Online user's guide
- Online help
- Help desk support

Security features

- Wizard for managing user account privileges
- USB hardware security key
- Application- or activity-level user security (per computer or system-wide)
- Login timeout feature
- Restrict project access by user
- Secure user audit trail
- Enhanced user password security
- Expiration of password after user-defined number of days

Compatible with the extensive line of Datacard® card printers

Image capture options

- File input
- Datacard® Tru™ Photo solutions
- TWAIN capture devices

Video for Windows capture devices

- Datacard Tru Signature solution
- ID Works Visitor Manager solution

System Requirements

Operating system

- Microsoft® Windows® 2000, XP, 7 (32-bit or 64-bit) or Windows Vista®

Web browser

- Internet Explorer v6.0 or later

Memory

- 512 MB RAM
- 100 MB hard disk space for application (not including database)

Color

- 16-bit color (65,536 colors)
- (Cameras may require higher color)

Resolution

- 800 x 600 screen resolution
- (1024 x 768 recommended)

Peripherals

- CD-ROM drive
- Available USB port

SOLUTIONS AND SUPPORT FROM A PROVEN PROVIDER

Only Datacard Group offers the hardware, software, supplies and service required to manage secure centralized and instant card issuance. We understand the consumer demands, security risks and other unique needs of both issuance models. For 40 years, financial card issuers around the world have trusted us to make card issuance fast, affordable and secure. The Datacard Secure Issuance Platform reflects this unmatched experience. You can also optimize your investment with our full line of professional services for planning, data migration, program start-up and ongoing technical support. We provide support in more than 120 countries.
